

GENERAL CIRCULAR 3/2017 (GC_3/2017)

To: All the Members of the Institute
Date: 6 February 2017
Subject: «ACCOUNTANCY CYPRUS» magazine

As it has already been announced, ICPAC joined hands with IMH for the publication of the «Accountancy Cyprus» magazine, which is issued by the Institute since 1982.

The objective of the magazine is to keep the members and the students of the Institute up to date with the latest developments in the accountancy profession. It deals with pertaining issues of the economy and business in general, finance, accounting, auditing, taxation, compliance, internal audit and many more. In addition, it provides an insight to the Institute's activities, both of the Council, management and Committees.

The cooperation commenced in 2016 and the final product has been significantly improved, both in appearance and in content, rendering thus more appealing both to the reader as well as to the advertise.

As you may have noticed, the last page of the magazine is dedicated to a member of the Institute for his/her “**out of office**” activities. So, feel free to contact us if you would like to share with the rest of your colleagues any specific hobby, activity, participation you have, which is outside your normal professional life. Accountancy Magazine would very much like to present the human face of ICPAC's members!

Attached you may find the media kit for the magazine, should any one wish to advertise or promote his/her business. For more information about the commercial matters of the magazine, please contact IMH directly on the details mentions in the attached media kit.
